## **Orban Revitalizes Original Website URL**

*Orban.com URL again brings broadcasters and professional audio users the latest information on leading industry processors.*

**Pennsauken, NJ** – Orban, the leader in professional audio processing for broadcast and professional audio, has re-designed its website and is re-launching the brand under the original URL, [www.orban.com](http://www.orban.com).

The updated website offers simplified navigation and enhanced search capabilities for seamless, quick access to Orban's extensive product line, worldwide dealer database and technical support for current and older product models.

"This new website reinforces the message that Orban is stronger than ever and will continue leading the world of audio processing for many years to come," said David Day, Orban president. "In the past year, we have introduced more than twelve new products to improve processing and manage audio monitoring for radio, TV and professional applications, and updating the website became essential. The features in our new website will enable quick access to information on everything Orban, both new and old. We invite everyone to visit [www.Orban.com](http://www.Orban.com) to test out the new features and leave feedback for us on the Orban Facebook page."

Orban recommends that visitors clear their browser history and cache prior to using the new website to avoid any issues that may occur during their site visit.
